Dear tangent INTERNATIONAL,

I'm excited to be applying for the Mobile Services Consultants position at your organization for a work positions based in Uganda.

I have more than 10 years working experience in the banking industry in Uganda with commercial Banks. I have had the opportunity to work as an officer, a Branch Manager and Head Office Supervisor. This experience has taught me different competencies it has made me understand certain regulations better and I can appreciate why regulators would have them in place.

I have been able to establish trust and effective communication with different customers, staff members and peers in the bank over the course of performing my duties. These are relationships I value and cherish.

Over the years I have noticed the various digital changes that are growing into the financial services sectors in my country and across the globe. I am interested in being part of this and learning more about this hence the reason why I have considered myself as a candidate for your company.

I therefore say thank you for the opportunity presented and looking for a positive outcome to work with you as a Mobile Financial Services Consultant

Yours Sincerely,

Joseph Soita W.
